# TRILOGIE

## Single Vineyard Selection—AC Cahors

The Trilogie consists of three 100% Malbec wines from three different terraces representing three different terroirs of Cahors. Carefully chosen plots are being worked separately to yield wines which would faithfully reflect the vine's history with regards to the soil, the climate, its exposure and ecosystem.

“My approach with the Trilogie consists simply of getting back to the fundamentals—those which form the winemaker's true profession.”
